Purpose of Contact: Disposition of Building T707S

Discussion

Building T707S is a small utility shed located south of Building 707. The building was previously used for storage, and is now completely empty. This building was designated a Type 1 facility in the Reconnaissance Level Characterization Report (RLCR) for the Building 707 Cluster, Revision 1, dated August 1, 2000.

The RLCR included a review of historical information, chemical sampling, and radiological surveys, which are summarized in Appendix C of the RLCR. Based on the information collected during the RLCR, no contamination was identified. In addition, a waste release evaluation was completed for the building on October 20, 2004, which verifies that it meets unrestricted release criteria (WRE No. 041019-00750-001).

Mr. Kray concurred with the project's intent to initiate demolition of T707S.
